

March 23rd, 2020

Parents and Friends of Piute County School District,

Today the Governor announced that the current school dismissal will continue through May 1st. That means we will continue to provide instruction through digital means until that time. School meals will also continue. Thank you for helping us transition to this digital platform for instruction. While there are still many questions being answered and problems being resolved, we are very grateful to have the capacity to make this transition.

Many of our faculty and staff were already using digital platforms for instructional delivery. We were able to provide a device for every family and nearly every student. Local internet providers have made offers to assist in providing home internet for those in need of assistance. This uniting effort of the community has helped instruction continue.

While school is expected to continue March 30th through May 1st the same manner as it has since March 18th the Piute County School District Board of Education will be meeting March 24th at 5:30 PM to discuss any implications the extended dismissal may have and telecommute options for teachers and staff. It is still unclear how this extension will affect spring athletics and activities after May 1st. Spring Break will be from Wednesday April 8th to Monday April 13th.

The schools will continue to provide updates about any changes or adjustments at the individual schools. While the schools may offer in person small group tutoring, one-on-one tutoring, or in person Special Education services at the school buildings, students are not required to participate in those offerings.

Thank you for your support of public education. When Martin Luther King Jr. would speak at universities and colleges he would frequently say "If you can't fly, run; if you can't run, walk; if you can't walk, crawl; but by all means keep moving [Forward]". Thank you for helping us move forward. Please contact the schools or district office with any questions you may have.

Sincerely,

Koby Willis
Interim Superintendent of Schools
