

Friends of Piute County School District,

The Piute County School District Board of Education has spent the good share of this academic year searching for a superintendent who could lead our district. There have been ups and downs and many frustrations.

We are pleased to announce we will appoint Koby Willis as our new superintendent. He will assume this position on July 1, 2020.

Since it is not generally known that the qualifications for a school district superintendent are left to the discretion of the local board, many assumed that a candidate with educational administration licensing would be required. That was the case up until 2018 when the law was changed to allow local boards to decide the qualifications that would best fit local needs. The law simply states, "outstanding professional qualifications." Mr. Willis was the unanimous choice of the Board.

Koby Willis has been the business administrator for six year in our district and has served as the interim superintendent since June 1, 2019. He also teaches a class at Piute High School and handles all his duties with fidelity and professionalism. Koby has a Bachelors of Business Education and a Masters of Business Administration. Koby has also been accepted into the Doctorate of Education Leadership program at Brigham Young University.

In making the announcement of the new superintendent, the Board also notes that the opening for a new business administrator will be announced in the near future.

Sincerely,

Marty Morgan - Board President

Jeremy Pearson - Board Vice-President

Rick Dalton - Board Member

Erin Jensen - Board Member

Teresa Morgan - Board Member
